 Lexmark

DESSO

Johnsonite

With our five-star heritage of the Lexmark, Desso and Johnsonite brands, we look forward to helping you create exceptional experiences in every space, every time.

Trusted Heritage

Tarkett Hospitality combines Lexmark, Desso and Johnsonite to give you a single destination for all your flooring solutions.

Superior Design

Discover stylish, contemporary running line and customizable designs, as well as full custom capabilities for all product types.

Dedicated Service

Our team supports you with expert design services and dedicated project managers to ensure the success of your project.

Tailored for Every Space

We can help you achieve the right aesthetics, performance and price point for each space with a coordinated suite of products.

Healthy for People & Planet

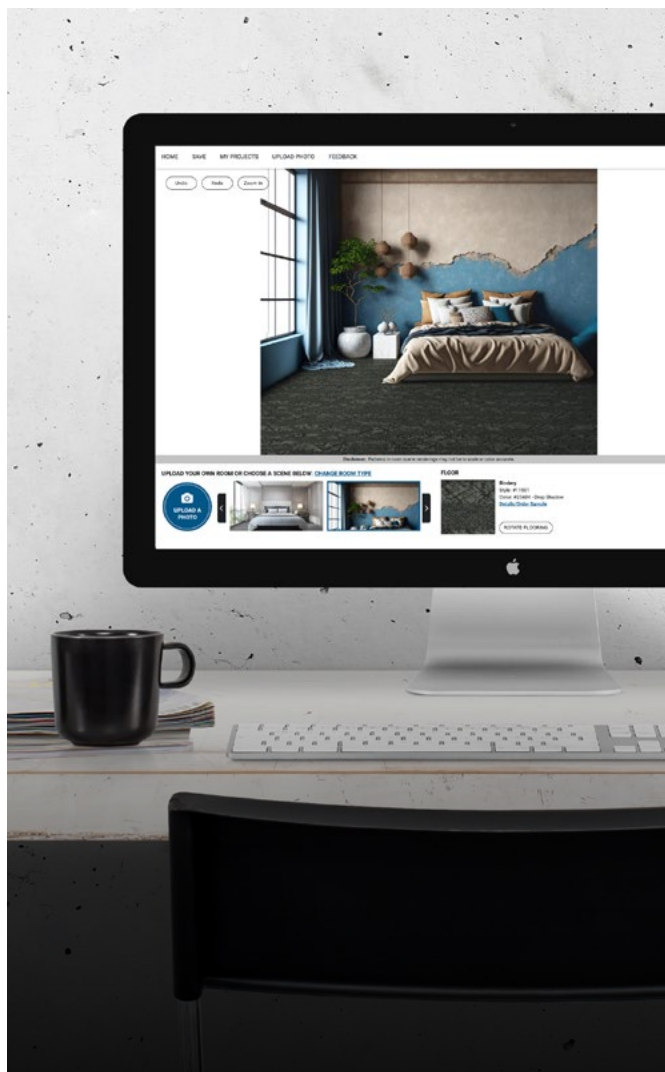

Give guests comfortable spaces that are not only easy to keep clean but also adhere to the highest environmental standards.

Brand Programs & Partners

Easily maintain your brand standards aesthetic with a Brand Program by Tarkett Hospitality. Across tufted broadloom, Axminster, carpet tile, area rugs, LVT, wall base and accessories, you will have the right products quickly for your facility. Our partners include industry-leading franchises from Hilton, Choice, Wyndham, Marriott and more.

We believe your design experience should be inspiring and empowering. We're always here to help with anything you need and are dedicated to supporting you with easy-to-use online tools and in-house services.

Visualizer Studio

Visualize our extensive line of Broadloom Carpet, Carpet Tile and LVT in a variety of hospitality environments or in your own space by uploading a photo.

[Explore Visualizer Studio](#)

Custom Design Studio

Use the online Custom Design Studio to recolor any Tarkett Hospitality pattern and visualize it in a variety of rooms.

Source One® Project Management

Your single point of contact for stress-free flooring projects. With unmatched flooring options, transparent pricing, and a national, vetted installer network, we can handle every aspect of your flooring project. From understanding site-specific requirements, like safety and access protocols, to coordinating the schedule with your general contractor, Source One provides a collaborative, compliant and flexible approach to each project.

[Explore Source One®](#)

Every step matters. Tarkett's holistic approach to sustainability is woven into the fabric of how we do business and sits at the heart of our day-to-day decision making. For decades, we've been scrutinizing every detail of our business for its impact on resources like soil, water, air, and climate—because when you're trailblazing a more sustainable future, every step matters.

NON PVC

Lextron™ Enviro-Green Solution Dyed Nylon

Durable, cost-effective, and eco-friendly, Lextron™ Enviro-Green is 100% solution dyed, made from 10% pre-consumer recycled content and is recyclable after the carpet life cycle is complete.

Our in-house production process, using state-of-the-art equipment, ensures high-quality, fade-resistant fiber with superior stain resistance. With a higher twist level than industry standards, Lextron™ Enviro-Green offers exceptional durability. Tarkett Hospitality can create solid color options to coordinate with any of our running line products. Choose from over 180 colors. Please refer to our Lextron™ pom box for the full color offering (excludes metallics and barber poles) or contact your rep for more information.

Start your next project with ReStart®

We're committed to creating a circular economy where nothing goes to waste. Take part by starting your next project with Tarkett's ReStart® flooring take-back and recycling program. The ReStart program will accept any type of flooring from any manufacturer. Join us as we innovate and collaborate towards a healthier future for this generation and generations to come.

[Explore Sustainability](#)

Tarkett Hospitality offers an industry-leading range of carpet constructions that make it easy to customize your floor to fit your needs. Your carpet will deliver the right look, the right performance level for the space and the right price point.

Hand-Tufted

Works of art with exquisite craftsmanship, brought to life in 100% New Zealand wool. Our hand-tufted area rugs create the perfect focal point for hospitality environments, providing both comfort and eye-catching designs. Explore the vast range of palettes and textures that will help you draw guests into the unique story of your space.

Axminster

Endless design possibilities in a luxurious woven construction, made with premium wool and nylon. Axminster provides superior beauty, crisp clarity and exceptional longevity. With our Sculpt technology, you can also enhance your design with multilevel texturing and depth.
Compare to: Axminster (Woven)

Vivid

Richly textured, beautiful patterns with high durability. Choose Vivid to create striking designs in up to 12 colors – the cut and loop tufted construction can deliver the effect of 24 colors, for patterns that are wondrously complex, textured and precise.
Compare to: High Definition CYP

Prestige (Formerly Legacy Plus)

All-cut, large-scale pattern capabilities that deliver design flexibility and high performance, enhancing any public space. Our Prestige construction provides plush comfort and an opulent aesthetic that beautifies ballrooms and busy corridors equally well.
Compare to: CYP (All cut, 36 oz)

DDI (Digital Dye Injection)

Unlimited pattern potential in a durable tufted construction. Your design is deeply injected into the carpet base, with controlled color placement that creates a clear, precise pattern. Choose from cut pile or one of three cut and loop textures for added dimension
Compare to: Print or Injection Dye

Intrepid

Detailed, clean patterns for public spaces and guest rooms, in a cut/loop or all loop construction that enhances the texture of your design. With its precise patterning, the Intrepid construction gives spaces a feeling of luxury underfoot.
Compare to: ColorPoint, CYP Textured

Dynamics

A beautiful balance of design, durability and value to suit any area, from guest rooms up to large public spaces. Dynamics provides an incredible range of tonal design possibilities, as well as an infinite play in pile heights to give spaces rich textural depth.
Compare to: Infinity

Candere

When taking a direct, sincere approach to design, beautiful texture will deliver a look that's as engaging as it is consistent, eyecatching yet appropriately straight-forward. Candere tile presents a dynamic, perpendicular stitch pattern in gorgeous, pleasing tones that allows for a sense of rhythm and intrigue. There are no tricks on display here: Simply neutral and bold tones of texture to create subtle complexity and depth for engaging spaces. Inspired by the Candid Collection.

Primary Backing: Woven PET

Secondary Backing: ethos® Modular with Omnicat Technology®

Deviate

Showcasing soft lines that conjure scenes like sea foam left behind on a coastline stroll or the cross-section of rock along a mountain hike, Deviate tile allows you to create stunning pathways that elevate the overall experience. The soothing foundation of greys, greige, beige and saturated accents creates palettes that allow you to break from the ordinary and dive into exciting depths. Inspired by the Divergence Collection.

Primary Backing: Woven PET

Secondary Backing: ethos® Modular with Omnicoat Technology™

Custom Backing Option: Flex-Aire Cushion

Fluctuate

Inspired by the Fluid Lines broadloom collection by Stacy Garcia, this collection creates an intriguing sense of movement. Fluctuate tile uses the same unrestrained flowing lines overlaid on top of the directional texture for a balanced visual juxtaposition. Although the fast pace of the modern world can prevent extended moments of calm, there's something comforting about design that reinforces the power of harnessing unpredictable movement.

Gold Ore

A seemingly mystical process of transformation and creation, alchemy is the practice of turning something ordinary into something extraordinary. Gold Ore tile captures deep, earthy neutrals that draw visual inspiration from time-honored formations and patterns found in the natural world around us. With the ability to turn ordinary spaces into reworked retreats that are both inviting and grounding, these styles can easily become the key ingredients to a design refresh with extraordinary results. Inspired by the Alchemy Collection.

Knitwear

Giving hospitality spaces a relaxed yet stylish vibe, Knitwear features timeless textural designs that bring to mind the softness of a favorite sweater. The collection's carpet tile format remixes and randomizes each pattern across the floor, adding a fresh edge to guest rooms, corridors and more. From nubby cable-knit visuals to an airy, abstract cross-stitch, Knitwear creates a comforting foundation for your spaces.

Marsh Tide

Nature provides a seemingly endless amount of inspiration, few more relaxing than saltmarsh fields that glisten in the sun with rows of reeds protruding from the dense growth. Marsh Tide tile is perfect for crafting a neutral plane interspersed with naturally occurring pops of interest along the way. This cool, adaptable visual evokes a sense of serenity and mirrors it's real-life counterpart with channels and levels woven into the carpet like the gradual ebb and flow of a low-country tide. Inspired by the Saltmarsh Collection.

Moth Effect

Like a moth drawn to a source of light, there is always an opportunity to find a flicker of inspiration in the most unlikely places. And like the intricate patterns on a moth's wings, nature's subtleties hold some of its most astounding marvels that may go unnoticed at first glance but are actually hovering close by. With 9 unique patterns inspired by the intricate patterns of various moth species, the Moth Effect Collection provides innovative design capability for unparalleled customization. In addition to a variety of tile sizes and backing options, patterns and colorways easily coordinate to both personalize and maximize the potential of any space.

Titan Moon

The comforting presence of celestial bodies that shimmer across the night sky follow us wherever we travel, and peak through layers of the galaxy to reveal their familiar luminescence. With an atmosphere of cosmic tranquility, Titan Moon tile expresses a deep color foundation to symbolize the ever-wide galaxy while brighter interwoven yarns come out to play like the stars in the sky. Ultimately, these relaxing surfaces influenced by the gridded network of space, combine pattern and interstellar eccentricity to make the great big world feel just a little more familiar. Inspired by the Luna Collection.

Walk Off Systems

Properly designed entryway systems can prevent 80% of outside soil from being tracked inside. Our versatile carpet tile products are ideal for use as an entryway system or for interior environments. Welded seams create a complete wall-to-wall moisture barrier. This system provides a sound, cost-effective solution for long-term appearance retention at entryways and other high traffic areas.

Backing Options

CONSTRUCTION

ethos® Modular with Omnicoat Technology® is a non-PVC backing made with post-consumer recycled PVB from car windshields and architectural glass from buildings.

When installed with TarkettTAPE, ethos with Omnicoat Technology requires no moisture testing.

Flex-Aire Modular Cushion provides superior acoustic performance, appearance retention, and moisture management. Offering a 0.22 Noise Reduction Coefficient and a 68 Impact Insulation Class, the product reduces noise and impacts, producing a calmer environment.

With 22-28% overall recycled content (including a minimum of 5-6% post-consumer content), Flex-Aire may be installed with TarkettTAPE for a floating installation (which can be just as easily uninstalled). The product may also be installed with Tarkett's C-12E pressure-sensitive adhesive, which has a C2C Certified Material Health Certificate™ at the Silver level.

Our Technologies

Omnicoat Technology® is a patented barrier applied to the back of all ethos® Modular flooring. By creating an inert layer on the bottom of ethos, Omnicoat prevents moisture, pH, or previous adhesives from affecting the floor installation.

When combined with TarkettTAPE™, ethos can be installed without moisture testing, saving one to three days of time. Installation can begin as long as there is no visible moisture and the previous adhesive is scraped flat and doesn't telegraph visually through the ethos installation.

Tarkett TAPE, a patented polyester film with a chemically inert, silicone-based adhesive, pairs versatility with a future-ready chemical resistance. Tested in extreme moisture and pH levels, the product is capable of withstanding the most adverse concrete conditions and can be used with either Flex-Aire Modular® Cushion or ethos with Omnicoat Technology (which eliminates the need for moisture testing). TarkettTAPE is a fast, easy way to float an installation and makes it simple to uninstall, reinstall and replace tiles when necessary.

Area Rugs

The holistic feeling that a room conveys is what truly defines the guest experience. This is where area rugs can make a big difference, adding the perfect, soft touch to your spaces. Not only can they tie your design together with inviting colors and textures, but they can also improve the space adding benefits of sound absorption and comfort for guests.

ACCORE: BARREL; ENTWINE: RUSSET INTREPID W0068 RUG

Running Line Area Rug Program New for 2025

A curated offering of tufted solution-dyed nylon rugs, cut to order from 12 ft. broadloom. No minimum order size required.

Ease and Availability

Our Running Line area rug program is designed to help you easily enhance spaces with hard surface flooring. Simply choose from our selection of running line rug styles and pick the size, and edge treatment. Your rugs will be ready to ship out quickly.

Comfort and Warmth

The softness of an area rug brings rejuvenating comfort underfoot. A textile floor covering helps increase insulation in a room and creates a cozy place to touch down, helping guests feel more at home.

Sound Absorption

Area rugs improve sound absorption in a space, which is especially important in a hotel environment. Dampening the sound of footsteps and absorbing ambient noise, area rugs help make a room quieter and more relaxing.

SIZE OPTIONS*

Rectangle - 6'x9', 10'x8' or 12'x15'
Contour - 6'x9', 10'x8' or 12'x15'
Circle - 11'

*Running line area rugs are also available as 12' broadloom.

Adaptt™

Adaptt LVT with SureSet™ technology is designed to drastically reduce the time and expense of your next floor installation. A unique sculpted wave backing system allows air and moisture in the subfloor to breathe, so Adaptt can be installed directly over the subfloor without an underlayment. The SureSet backing also directs sound through its channels, providing more comfortable acoustics for everyone in the space.

Even Plane

Sometimes, what we don't see is even more striking than what we do. Beneath the surface of Even Plane LVT, a non-woven fiberglass layer resists indentation and absorbs the sound of nearby foot traffic 30% better than building code requires, helping create quieter spaces. Install alongside carpet tile—without transition strips—for additional comfort and delineation of space. With a 32-mil wear layer and state-of-the-art Tectonic® protection, Even Plane raises the grade on performance, while keeping your feet on even ground.
